

NHS

**Let's talk
about it**

**HIGHLIGHT
CANCER**

Unusual swelling

Blood
in urine

Persistent
cough

Extreme tiredness

Breathlessness

HIGHLIGHT CANCER

is a free, practical, down to earth training programme that gives you more confidence to discuss cancer openly with people in your community. It's not a lesson or a lecture, it's a shared experience that leaves you ready to have simple, yet powerful, conversations.

To register your interest in attending a free training session please contact:
priya.yoganathan@nhs.net

The training is provided by Cancer Research UK as part of their Talk Cancer programme cruk.org/talkcancer

The UCLH Cancer Collaborative is a part of the national Cancer Vanguard, working with RM Partners and Vanguard Innovation (Greater Manchester)
